

Red Star : Model 6202-2545

This manual contains important information on the safe and efficient operation of your watch. Please read this information before you using your watch.

Function:

- Automatic mechanical movement
- Small second at center
- First time zone indicator at 3H
- Second time zone indicator at 9H
- Power reserve at 12H
- Counterclockwise retrograde date at 6H

Adjustment:

- Crown at position1: hand-winding
- Crown at position2: second hand stop; Clockwise turning crown, hour and minute hands of both time zone indicators are adjusted synchronously;
- Counterclockwise turning crown, minute hands of both time zone indicators are synchronously and the hour hand of the first time zone indicator are adjusted synchronously, the hour hand of second time zone indicator is stop.
- Corrector A is used to adjust retrograde date.

Parameter:

- Frequency: 21600
- Tolerance: -15-- +35 seconds/day
- Power Reserve: 42 hours
- Jewel: 40

Note:

- The retrograde calendar can backtrack with turning crown counterclockwise except the date hand is at the 1. Please do not turn the crown counterclockwise when the date hand is at the 1. The misusing can make the movement defective.
- Please do not adjust the retrograde date with the pusher A when time of first time zone indicator is between 22 o'clock and 2 o'clock.
- For the possible quality problem, we suggest all customers to contact our official service center.
